

Sen Zhang

Registered Architect in NY · 518.618.6150 · zsenarchitect@gmail.com

Summary

Registered NY architect (NCARB) and computational design technologist, 9 years post-Master's. Architect and lead developer of EnneadTab — a 450+ tool firm-scale design-automation platform with three U.S. Copyright registrations, deployed daily across NYC, LA, and Shanghai studios. Speaker: Autodesk University 2024, Advancing Computational Design Conference 2026.

Experience

Ennead Architects LLP / Computational BIM Developer

New York, NY · 2022–Present

BIM Manager (concurrent)

2022–Present

Rhino Doctor (concurrent)

2022–Present

Architectural Designer, BIM Specialist

2020–2022

- **Computational BIM Developer — In-house plugin development for Revit and Rhino**

- + Architect and lead developer of EnneadTab — 450+ tools across Revit, Rhino, CAD, Adobe, Excel, Email, and LLM integration; three U.S. Copyright registrations (2024)
- + BimRunner — Revit project-health analytics dashboard (Next.js 14 + Vercel Postgres, ~91k LOC, 422 files); RESTful ingestion + dynamic scoring
- + EnneadTabLLM — on-prem Ollama RAG monorepo (Windows server + Vercel proxy + shared TS types) for HIPAA / data-sovereign clients
- + AIA-Sustainable-Reporting — CRON Excel pipeline + dashboard for AIA 2030 metrics; FieldDay — offline-first PWA for site inspection with PDF spatial pinning
- + Fluent in CPython, IronPython, Revit API, RhinoCommon API, TypeScript / Next.js; LLM integration via Ollama, OpenAI, Anthropic, MCP
- + Repository auto-publishing, auto-distribution, auto-documentation; Azure VM + cloud-computing environment with IT

- **BIM Manager (concurrent)**

- + Healthcare (NE US): NYU Langone, Northwell, Lenox Hill
- + Commercial (Asia): FTZ Shanghai, ByteDance Houhai HQ, Bilibili HQ
- + Solution architect for large-model BIM data, complex families, in-house training and mentoring

- **Rhino Doctor (concurrent)**

- + Rhino-to-Revit interoperability via zero-learning-curve internal tooling
- + Triage of complex parametric and industrial-scale geometry
- + Speaker: Autodesk University 2024 (San Diego), Advancing Computational Design Conference 2026 (Austin)

Arquitectonica / Designer, BIM Specialist, CG Visualization

New York, NY · 2017–2020

- 40 Hudson Yards (NYC office tower); Amazon HQ2 master planning (Chicago); 31 Parliament mid-rise residential tower (Toronto SmartCity)
- Curtis Block (Calgary); Warsaw Hotel (Poland); Newport Waterfront; Equinox Hotel (San Jose); Queens Sherbourne mixed-use with historical preservation (Toronto)

RPI Publication Dept. / Book-design, Asset Management

Troy, NY · 2016–2017

Terreform ONE / Research, Design

New York, NY · 2016–2017

Selected Projects — Design Technology

EnneadTab / Architect & Lead Developer

2021–Present

Cross-application plugin ecosystem spanning Revit, Rhino, CAD, Autodesk Desktop Connector, Enscape, InDesign, Photoshop, Excel, Email, AI/LLM, computer-resource monitoring, text-to-speech, and sound effects. 450+ tools, three U.S. Copyright registrations (2024). CPython compile pipeline → distribution repo → user-side scheduled updater with delayed-deletion silent background updates.

BimRunner / Architect & Full-Stack Developer

2026–Present

Production Revit project-health analytics dashboard. Next.js 14 + Vercel Postgres + Chart.js, ~91k LOC across 422 files. RESTful ingestion API, dynamic scoring from stored facts, file-attachment extensibility. Surfaces model debt before it becomes coordination crisis.

EnneadTabLLM / Architect & Developer

2025–2026

Local-deployment Ollama RAG monorepo. Windows server (Ollama + RAG pipeline) + Vercel Next.js proxy + shared TypeScript types. Solves the on-prem AI problem for HIPAA / data-sovereign clients without sending model data to a vendor.

AIA-Sustainable-Reporting / Architect & Lead Developer

2026–Present

CRON Excel pipeline + frontend dashboard for AIA 2030 sustainable-design metrics. Single-source `.env.local` config across Next.js app, cron scripts, and CLI; Vercel CLI + Codespaces friendly. Closes the firm-wide reporting loop for the AIA 2030 commitment.

FieldDay / Architect & Lead Developer

2026–Present

Offline-first PWA for site inspection on phones, tablets, and desktops. PDF-based spatial pinning, photos, voice notes, and comments with zero-connectivity capture and Vercel Pro cloud sync. Preserves spatial accuracy across drawing revisions.

EnneadTabHome / Architect & Developer

2025–2026

Landing page and central hub for the EnneadTab application family at enneadtab.com. Next.js 14, Tailwind, mobile-friendly UI.

EnneadTabWiki / Architect & Lead Author

Ongoing

Public documentation site for the EnneadTab plugin ecosystem. <https://ennead-architects-llp.github.io/EnneadTabWiki/>

Rosette / Architect & Developer

2026–Present

Architectural-language translator: turns design-team, client, and regulatory text into one-line plain-English (or Mandarin) summaries with an interactive structural graph. Part of the EnneadTab product line.

RenderPolisher / Architect & Developer

2025–2026

Internal AI-driven render post-processing pipeline for architectural visualization workflows.

2025 Performance Review / Architect & Lead Developer

2025–2026

Firm-wide employee-evaluation system. Excel ingest → interactive HTML report with software-proficiency tracking and visual analytics. Deployed to GitHub Pages.

LakeHouse-Design.com / Architect & Developer

Ongoing

Rhino package of professional design tools — dynamic area takeoff, layer/material merging, object transformation, block management. <https://lakehouse-design.com/>

Speaking & Recognition

Advancing Computational Design Conference / Speaker

Austin, TX · 2026

The Design of Design — Enabling Agile Introduction of New Tools to Scale Design Efficiency <https://2026-ai-talk.vercel.app/>

Autodesk University / Session Speaker

San Diego, CA · 2024

Revit As A Game Engine

Digital Built Week Americas / Panel Speaker

Dallas, TX · 2023

Promoting Computational Design to Non-Programmers

Education

Columbia University GSAPP / M.S. Advanced Architecture Design	New York, NY · 2016–2017
Rensselaer Polytechnic Institute / Bachelor of Architecture	Troy, NY · 2012–2016
Tongji University / Major in Urban Planning	Shanghai · 2010–2012

Credentials & Technical Stack

- Registered Architect, New York (NCARB)
- Languages: Python (CPython, IronPython), TypeScript, React, Next.js
- Tooling: Revit API, RhinoCommon API, Grasshopper, Dynamo, MCP, LLM integration (Ollama, OpenAI, Anthropic)
- Spoken: English, Mandarin Chinese (native)

Awards & Recognition

• EnneadTab — U.S. Copyright Office — 3 registrations, authorship credited to Sen Zhang	2024
• Hyperloop Campus, Las Vegas — Honorable Mention	2020
• Greenway to Ideal City, Chengdu — 2nd Place	2019
• Tokyo Anti-Library — Honorable Mention	2018
• Non Architecture: Dance — Finalist	2018
• AIA Henry Adams Award	2016
• Magna Cum Laude Honors — Dean's List 2012–2016	2016
• George T. Droste Scholarship — Structural engineering study	2015
• Faculty Selection Award — Academic proficiency in Architecture	2015
